

AWS MARKETPLACE - Partner overview

AWS Marketplace is a curated digital catalogue that simplifies software provisioning and makes it easy for customers to find, buy, test and deploy thousands of third party ISV solutions that run on AWS. You only pay for what you use through various payment options and receive discounts on longer or custom terms. Additionally all charges received from AWS Marketplace are consolidated into one handy bill for you.

For your peace of mind, AWS continuously scans all the Software available through AWS Marketplace so you can be assured that all your software deployments are fully reliable and verified.
